BODDINGTON'S MID-SUMMER GARDEN GUIDE

CONTAINING A LIST OF MAY 2

Fall Bulbs: Strawberry Plants and Seasonable Seeds and Sundries

Border of Lilium candidum (the hardy St. Joseph or Annunciation Lily). For prices, see page 15

Seeds, Bulbs and Plants Delivered Free to Your Door

- (1) We will prepay Parcel Postage on Flower Seeds at the Packet, Ounce or Pound rates, or Vegetable Seeds at the Packet, Ounce or Pound rates, and Peas, Beans and Corn at the Packet, Pint or Quart rates, when your completed order does not exceed eleven pounds in weight (packed). N. B.—Peas, Beans and Corn weigh about one pint to the pound. Should we find that said package can be sent cheaper by express, we reserve the right to send the shipment by express prepaid.
- (2) We will prepay Parcel Postage on all Bulbs (with the exception of Spirea and Lily-of-the-Valley Clumps) at the each and dozen prices, and also upon the hundred price when the weight for one hundred does not exceed eleven pounds (packed).
- (3) We will prepay Parcel Postage on Roses or Plants at the each and five rates when the completed order does not exceed eleven pounds in weight (packed), or exceed the governmental regulations with regard to combined length and girth of package (72 inches).
- (4) We will prepay Parcel Postage upon Grass Seed, Grain or Clover Seed at the pound and ten-pound rates, when your completed order does not exceed ten pounds in weight.
- (5) We do not prepay postage, express or freight upon Implements, Fertilizers and Insecticides, nor upon any articles not above mentioned.
- (6) The above terms apply only to Seeds, Bulbs and Plants offered in this Catalogue.

TWENTY POUNDS PARCEL POST FREE

(7) We will prepay Parcel Post or Express (at our option) all prepaid purchases of Seeds, Bulbs, Plants or Supplies (that come within the Parcel-Post regulations), to all points within 150 miles, or within the two Parcel-Post zones, of New York City, when the package does not exceed twenty pounds in weight (packed).

N. B. Should any of your orders SLIGHTLY EXCEED the weights given, we will prepay in any event. Our policy is to protect our customers.

OUR TERMS

Prices named herein are subject to the following discounts: Two per cent allowed to be deducted, when cash accompanies order. To customers of approved credit, accounts are payable 30 days from date of invoice, except where special prices and terms are arranged for. Grass, Grain, Clover Seed, Implements, Fertilizers, Insecticides and General Supplies are subject to no discount whatever, but are strictly net cash.

ORDER EARLY.—It is very important that you should send your orders as early as possible on receipt of this Catalogue. Also that you write your order and letter on separate sheets of paper; this will facilitate the filling of same, and will avoid errors. We aim to ship all orders the same or next day after receipt, but during the busy season it is almost impossible, hence the importance of ordering early.

WE NEVER SUBSTITUTE without authority from our customers. As the season advances, however, some stocks "run out," and it is sometimes impossible to procure more. If, however, you give us permission to substitute, please state so in your o der, and we will use our knowledge and ability to send goods of equal merit, usefulness and value.

PRICES.—As it is impossible to predict the exact demand, our prices are made subject to change without notice, and goods being unsold when order reaches us. We, however, carry very large stocks, and, if order reaches us in good season, full satisfaction may always be expected.

C.O.D. orders can be sent only by express. Such orders must be accompanied by a remittance, in part payment, to guarantee charges.

Our Telephone Number is "2206 Chelsea"

WHEN WE BUY, QUALITY IS OUR FIRST CONSIDERATION

Boddington's "Quality" Darwin Tulips

The Darwin Tulips originated in the north of France, where they were raised from seeds of the best varieties of Bybloems. It was over a quarter of a century ago that a well-known Dutch bulb-grower first noticed their splendid qualities as garden Tulips, and, after

having grown them on for some time, he put them on the market, naming them after that great naturalist, Darwin.

They form a distinct class of Tulips, and one can easily tell Darwins from other late Tulips by the cup shape of the flowers, the robust growth of almost every one of them, and the white, blue or black, but never yellow, markings inside at the base of the flowers. If the base is yellow, it is not a Darwin. Another notable characteristic is that, when looking into the flowers, they are just as beautiful and, in some instances, even more beautiful than when looking at the outside, which is never so with any other Tulips. And the greatest difference between Darwins and other late Tulips is that almost every Darwin can be forced, some of them by the middle of February. With their long stems and their bright colors ranging from white through all the shades of pink and purple to the most fiery scarlet, they form an exquisite material for garden decoration, and, as such, the demand for them is constantly growing. Our collection is one of the best and largest and the result of much care and selection.

Please note that there are no yellow Darwins. Those that are sold as yellow are either Cottage Tulips or Breeders, and can be found under those heads in our list. We wish to say here that the skins of most Darwin Tulip bulbs are very thin and do not stand much hand-

They seldom have that nice appearance of the bulbs of the early varieties.

Planted in the herbaceous border they make a great show in late May and June. Flowers are large and borne upon tall, erect stems. To secure the best effects, plant five to twenty bulbs in a group or bed the same as the early varieties. Those marked with a star (*) are recommended for forcing

*ANTON ROOZEN. Large-flowering; rosy pink. 50c. per doz., \$4 per 100, \$37.50 per 1,000. *PAINTED LADY. *Bronze Queen. BODDINGTON'S "QUALITY" SINGLE COTTAGE or MAY-FLOWERING TULIPS

For Planting among Herbaceous Plants and Formal Borders of Shrubbery, etc.

It is surprising that these grand Tulips have not been more largely planted. As an early display, they are magnificent in their beauty and coloring, coming into flower, as they do, from May 15 to the first week in June, according to the season, and are most useful from a decorative point of view, after the early-flowering Tulips are past. The colors are various, as described in the following sorts, and their height, after being well established, reaches nearly 3 feet in some types. After planting, they need not be disturbed for years, and fill in the space until spring plants can be set out in beds. There are many beautiful late-flowering Tulips, but the following are a few of the most distinct varieties. No pretentious garden, or public park where flowers are grown extensively under appropriate surroundings, should be without a selection of them, for they afford immense enjoyment to large numbers of people, as we know from experience.

Single Late, May-flowering or Memorial Day Tulips (types)

Bizarres. Handsome, rich flowers, with yel- Doz. low ground, feathered or striped with crimson, purple and white. Finest mixed.....\$0 35 \$2 50 \$22 00 Bouton d'Or. Has deep, clear yellow, globular, medium-sized blossoms, with curious 18 00 black-anthered stamens. 2 00 Bybloems (Violets). Late Tulips, with white ground, blotched, striped or feathered with lilac, purple, violet, blue or black; extremely 18 00 handsome and effective. Finest mixed 30 2 00 Bybloems (Roses). Superfine mixed...... 2 50 22 00 35 Darwins. Very large flowers of good shape, on tall, strong stems; for brilliancy of color they surpass any other Tulip; they include every known shade from the lightest tint to the brightest hue. Finest mixed. (For named varieties, see page 2). 25 I 75 15 00 Elegans. Dark crimson, beautifully reflexed. 20 00 35 2 25 Flava. Beautiful, soft lemon-yellow. Fine for massing in beds of single color..... 1 75 12 50

Gesneriana s p a t h u l a ta or major. This variety has long been in eultivation. The beautifully curved flowers are brilliant scarlet, with a bluish black center, on tall stems. 30 cts. per doz., \$2 per 100, \$18 per 1,000.

Gesneriana macrospeila. Crimson-scarlet, black and yellow center. 20 cts. per doz., \$1.25 per 100, \$12 per 1,000.

Gesneriana lutea. Beautiful yellow, tall and handsome. 5 cts. cach. 30 cts. per doz., \$2 per 100, \$18 per 1,000.

Gesneriana Ixioides. Beautiful yellow, with black center. 20 cts. each, \$1.25 per doz., \$10 per 100.

Greigi. The beautifully formed flowers are of large size and of a gorgeous orange-scarlet color, so brilliant as at once to attract the attention. The plant is quite ornamental, on account of its broad, spotted foliage. 15c. each, \$1.25 per doz., \$10 per 100.

Isabella, or Shandon Bells. The petals are a rose-color, flushed or flaked with white when they are first open, and after two or three days change to a suffused deep rose and red. Remains longer in bloom than many others, and stands well when cut. 25 cts. per doz., \$1.25 per 100, \$12 per 1,000.

La Merveille. A magnificent variety, with very large, sweet-scented blossoms. Salmon-rose, overlaid with orange-red. A grand border variety. 25 cts. per doz., \$1.25 per 100, \$12 per 1,000.

Mrs. Moon. The finest late yellow; beautifully reflexed petals. A charming variety. 75 cts. per doz., \$6 per 100.

Maiden's Blush, or Picotee. Clear white, L	oz.	IC	00	1,00	00
margined on the edge with pink. The flower					
is beautifully curved, but it is somewhat diffi-					
cult to give a correct idea of the color. When					
it opens, the petals are white and margined					
or penciled with pink to cerise. After two or					
three days the flowers change to a deep rose,					
and, unless one is acquainted with it, it would

Hollandia Collection of Single Late, Cottage or May-Flowering Tulips

The name of this class of Tulips has been derived from the fact that many of them have been found in the gardens of country houses and cottages in England and France. Planted in Holland soil, they have multiplied rapidly, and by skillful hybridizing the number of variations.

and cottages in England and France. Planted in Holland soil, they have multiplied rapidly, and by skillful hybridizing the number of varieties has become very large, one surpassing the other in size and beauty of color. All colors imaginable are to be found among them, and, as they are all long-stemmed, they form an excellent material for the cut-flower grower as well as for the landscape architect.

To popularize the growing of the Late, Cottage or May-flowering Tulips we again offer the following collection of unique varieties, which are the cream of over one hundred, especially imported by us for trial, and we consider them the most perfect of this lovely type both in form and color. Some will attain a height of nearly 4 feet in one season, being borne on long, stiff stems well above the foliage, and once planted in the border will increase and bloom for years. A trial of these lovely Tulips will convince you of their merits.

CALEDONIA. Bright orange; very beautiful variety. 5 cts. each, 35 cts. per doz., \$2 per 100, \$17.50 per 1,000.

CYGNET. White, with black anthers, giving the flower a very distinct appearance. 15 cts. each, \$1 per doz., \$8 per 100.

CYCLOPS. Beautiful scarlet, with yellow center and black anthers; very distinct. 15 cts. each, \$1 per doz., \$8 per 100.

ELLEN WILLMOTT. Undoubtedly the finest May-flowering Tulip. Flowers very large, beautiful in form and of a soft creamy yellow; very fragrant. 10 cts. each, 75 cts. per doz., \$5.50 per 100.

GALA BEAUTY, or COLUMBIA. Blotched vermilion and golden yellow. 15 cts. each, \$1.50 per doz., \$12 per 100.

INGLESCOMBE SCARLET. Very brilliant scarlet, black base; a grand variety. 5c. each, 5oc. per doz., \$3.25 per 100, \$30 per 1,000. INGLESCOMBE YELLOW. A large, canary-yellow flower of perfect form, glossy and very beautiful. 10 cts. each, 75 cts. per doz., \$5.50 per 100.

INGLESCOMBE PINK. A grand pink variety; highly recommended. 5 cts. each, 40 cts. per doz., \$2.25 per 100, \$21 per 1,000.

LUCIFER. Bright terra-cotta-orange; very pretty. 20 cts. each, \$1.75 per doz., \$14 per 100.

MOONLIGHT. A big, oval-shaped flower of unusual substance on a very tall and strong stem. The color is soft yellow and pleasing, like that of moonlight, hence its name. One of the best novelties. 15 cts. each, \$1.25 per doz., \$10 per 100.

PRIMROSE BEAUTY. Soft primrose, changing to white. 5 cts. each, 40 cts. per doz., \$2.50 per 100, \$24 per 1,000.

QUEEN ALEXANDRA. A beautiful late Tulip; flower of fine form, soft sulphur-yellow, with black anthers. 5 cts. each, 50 cts. per doz., \$4 per 100.

THE FAWN. Very large, oval flower; light grayish rose, changing to soft rosy white. 5 cts. each, 75 cts. per doz., \$5 per 100.

COLLECTION: One each of the above 13 beautiful and unique varieties for \$1.25.

Parrot or Dragon Tulips

These Tulips of immense size are rightly named, and present occasional shades and markings that are truly marvelous. They are well worth growing in borders for the interest their showy flowers afford.

Tulips

Rembrandt Tulips are simply queerly striped and feathered Darwin Tulips. They resemble Bybloems, but are larger, and there is more variety in the colors.

These varieties are little known in America. To those who like the stringed Tulip we can the result be recommended.

the striped Tulip we can thoroughly recommend the following varieties, which were selected with great care as to their distinctness.

Aladdin. Lilac, striped amaranth\$0	ach 10	Doz. \$1 00	100 \$6 00
Crimson Beauty. Carmine and white, flamed dark red.	10	I 00	6 00

Titania. Rosy lilac and white, striped red	10	I	00	6	00
Victor Hugo. Carmine, flamed white	10	I	00	6	00
Mixed Superfine			40	2	75

COLLECTIONS: One of each, 6 varieties, 50 cts.; two collections, 90 cts.; three collections, \$1.25. Mailed free.

Breeders, Self-Colored

Breeders, formerly listed among the ordinary Cottage Tulips, really form a distinct class by themselves. Originally they were simply Bybloems or Bizarres, without their stripes, and their dull, bronzy colors show their origin; but there is something peculiar about them that attracts the attention and cannot leave a lover of flowers indifferent. When believes the color of the colo flowers indifferent. When looking at a collection of Breeders, he either does not care for them in the least or becomes a warm admirer. A peculiarity of Breeders, which other late Tulips have, is their agreeable, sweet scent, which can be noticed even at a distance. The flowers have unusual lasting qualities.

To introduce these interesting Tulips we offer the following excep-

tionally good varieties:

Cardinal Manning. Dull wine-red and E bronze; an enormous flower, of a peculiar odd		Do	z.	10	00
color, which we cannot very well describe, but which attracts attention\$0	IO	\$0	75	\$5	00

Mixed Superfine			40	2	75

COLLECTIONS: One of each, 9 varieties, \$1.25; two collections \$2.35; three collections, \$3.50. Mailed free.

FOR BEDDING OR FORCING, FIRST-SIZE FLOWERING BULBS ONLY

There is one important difference between hyacinths and Tulips. Under similar treatment most hyacinths flower about the same time, while Tulips come into bloom at successive periods. The divergence has frequently been the source of much disappointment, for, in a bed (or even a vase or pot) planted with different Tulips, one variety may be overblown before the others show their colors. For brilliant bedding effects, solid masses of color are to be preferred, especially for design bedding.

For cultural directions under glass, see hyacinths, page 8. The treatment to be followed is exactly the same. Tulips for bedding should be planted about 6 inches apart and about 4 inches deep, reckoning from the tops of the bulbs.

The figures following the varieties indicate earliness in flowering, No. 1 being the earliest; No. 2 following; No. 3 being still a little later, but coming into bloom before the No. 2's are out. The height is indicated by "D" for dwarf, "M" for medium, "T" for tall.

Arrangements of Color Schemes for Bedding, etc.

We shall be glad to make further suggestions

Prince of Austria and Vermilion Brilliant. Chrysolora and Belle Alliance,

Couleur Cardinal. Bedded by itself makes one of the most beautiful beds.

Duchesse de Parma and La Reine.

La Reine and Artus.

Maes. Unsurpassed when bedded alone. Pottebakker, White and Chrysolora.

Pink Beauty and Ophir d'Or. Rose Gris-de-lin. Separate in one bed.

Keizerkroon. Makes a unique bed. Cramoisi Brillant and Ophir d'Or.

Sorts Recommended for Forcing

For flowering in December and early January.—The Duc Van Thol varieties, La Reine, Mon Tresor, Proserpine, Thomas Moore, Vermilion Brilliant, Rembrandt, Yellow and White Pottebakker, White Hawk.

For flowering from January to March.—Belle Alliance, Chrysolora, Duchesse de Parma, Goldfinch, Keizerkroon, Pink Beauty, La

Reine, Prince of Austria, Joost Van Vondel (White), Rose Grisde-lin, Vermilion Brilliant, Yellow Prince, Crimson King.

For flowering from early March to early April.—Belle Alliance, Couleur Cardinal, Flamingo, La Reine, Le Matelas, Queen of the Netherlands, Prince of Austria, Queen of Pinks, Cottage Maid, Rose Gris-de-lin, Rose Luisante, Vermilion Brilliant, White Hawk.

Boddington's Extra-Selected Named Dutch Hyacinths

CULTURAL DIRECTIONS

HYACINTHS IN POTS.—It is important in the pot culture of Hyacinths to have rich, light soil. If the bulbs are to be potted singly, HYACINTHS IN POTS.—It is important in the pot culture of Hyacinths to have rich, light soil. If the bulbs are to be potted singly, pots 5 inches in diameter are the proper size. Cover the hole in the pot with a piece of broken pot, and over this place a layer of moss, which will keep the soil from clogging the drainage thus provided. Break off any offsets which appear at the base of the bulbs, and, in potting, place each bulb so that its top shall be half an inch below the surface of the soil and an inch below the rim of the pot. The soil should be of usual natural moisture, and should be pressed moderately firm. The filled pots may be placed in a coldframe where there is protection from frost or in the coolest part of the cellar, and well watered. An excellent plan is to place them on a bed of moist sifted coal-ashes, covering the pots to a depth of 6 inches with the same material. When well rooted, which will be in about ten weeks, the bulbs may be brought indoors and forced. For the first two or three weeks they should be kept in a temperature not exceeding 50 degrees. Success in forcing depends much on their having strong roots before being brought to the light. The top grows rapidly, and unless the roots are started much in advance they are unable to nourish the plant, and failure results.

Hyacinths for early use may be potted in September or October. When desired for late use, it is better to pot them in October and keep them in a coldframe or cellar above freezing until it is desired to force them into bloom. To obtain dwarf foliage and fine flowerspikes, Hyacinths, when being forced, should have plenty of manure-water and fresh air, and should liave as much light as possible. The blooms last much longer if shaded from the sun after they show color.

blooms last much longer if shaded from the sun after they show color.

HYACINTHS IN GLASSES.—The single varieties are, with a few exceptions, best adapted to this mode of culture. They produce finer flower-spikes than the double. Fill the glass with clear soft water, so as nearly to touch the base of the bulb, putting a small piece of charcoal in each glass to keep the water pure and afford some nourishment. The filled glasses should be placed in a dry, cool, dark place, and kept there until the roots almost touch the bottom of the glass, when they may be exposed gradually to the light. If the water in the glasses becomes foul or diminished, replace it with fresh water at about the same temperature as the atmosphere in which the bulbs are growing; otherwise it need not be changed. When well started, the bulbs should have plenty of light and air, without drafts, in order that the best development and brilliancy of color may be obtained. Intending purchasers can rely upon all bulbs of Hyacinths being thoroughly ripened, fully up to specified size and "quality," and true to name.

Boddington's "Quality" Bedding Hyacinths to Color

Bedding Hyacinths should be planted about 8 inches apart each way—or, say twenty to the square yard—and 4 or 5 inches deep, reckoning from the top of the bulb. The actual number requisite for a given area, however, must be determined in every instance by the local conditions and the object in view; a large bed in the distance need not be so closely planted as a small bed in the immediate foreground, and of course a smaller number will be necessary in either case if a groundwork such as Myosotis, Silene or Arabis be provided. Hyacinths planted alternately with Narcissi produce a very striking effect, and for this combination 6 inches from bulb to bulb is a suitable distance.

The following Hyacinths, although offered at very low prices, have all been imported by us from Holland this year and can be strongly recommended for their high quality. They are specially adapted for groups in borders and shrubberies, where they will give a brilliant display of very handsome flowers; but for beds, where simultaneous flowering and uniformity of shade are of importance, we recommend the Superlative Hyacinths offered above.

Boddington's "Quality" French Roman Hyacinths

Although the flowers of the French Roman Hyacinths are smaller than those of the Dutch Hyacinths, they can be forced much earlier muo bloom, are more fragrant, and bear a greater abundance of flower-spikes than the Holland-grown bulbs. These can be forced for a continuance of bloom all winter, and are unsurpassed for cut-flower purposes.

Boddington's Dutch Roman or Miniature Hyacinths

These are small bulbs, or miniature Dutch Hyacinths, and are now very largely used for growing in pans or pots. They are also used extensively for bedding purposes, as they produce large spikes of flowers. We can specially recommend our "Quality" Dutch Romans to those who have never grown them, and therefore do not know their value. They consist of named sorts, similar to regular first-size Dutch Hyacinths, of the finest grade and true to name. 12 to 15 centimeters.

Albertina. Pure white.

General Pelissier. Scarlet; good forcer.

Czar Peter. Light porcelain-blue.

Gertrude. Rosy pink.

Gigantea. Daybreak-pink.

Grand Maitre. Deep porcelain-blue.

Mme. Van der Hoop. Best late white.

Pieneman. Blue; large truss.

Queen of the Blues. Sky-blue; fine.

Roi des Belges. Bright red.

Any of the above, 5 cts. each, 50 cts. per doz., \$3.50 per 100

NARCISSI AND DAFFODILS

Narcissi and Daffodils are among the earliest-flowering bulbs, and are alike useful for cut-flowers and decorative purposes. The most useful for early forcing is the well-known Paper-White Narcissus, N. grandiflora multiflora. They are pure white, chaste and beautiful, and are borne on long stems, sometimes as many as fifteen to a stem.

CULTURAL DIRECTIONS.—Plant bulbs in shallow pans or boxes, about 2 inches apart, and store in cellar or shed till thoroughly rooted. Do not allow frost to reach them. If wanted for Christmas, bring into the light about the second week in November, and after that successively (about a month to six weeks), and you will have Narcissi in bloom till nearly Easter. They are among the most satisfactory of flowers for winter adornment of the home. For general cultivation of Narcissi under glass, see hyacinths, page 8.

Paper-White Narcissi can also be grown in water with pebbles in shallow dishes and bowls, the same as the Chinese Sacred Narcissus, or in our prepared fiber. See page 14 for particulars of this interesting cultivation.

Boddington's "Quality" Paper-White Narcissi

Grandiflora multiflora. Not hardy and can be grown only under glass, or in a sunny window. Vigorous grower, with fi	ne spike,	which
carries larger trusses of pure white, fragrant flowers, and in greater abundance than the old varieties. Doz.	100	1,000

The above varieties can be grown in bowls of water or in our prepared fiber. See page 14.

NARCISSI DAFFODILS FOR NATU-RALIZING, BEDDING, ETC.

For producing brilliant masses of striking color in the mixed border, among shrubs, under trees, or for grouping in grass, the preceding varieties of Narcissi are unequaled, while they especially claim the attention of amateurs for their hardiness and accommodating qualities. Clumps should be grown in odd corners to furnish flowers for decorative purposes. When cut just as they begin to expand, the flowers develop their full beauty in water as perfectly, and retain their brightness for as long a period as when allowed to remain on their own plants. Pansies, myosotis, scillas and other low-growing plants and bulbs make lovely companions for these popular Narcissi. We especially recommend Narcissi for this purpose.

SINGLE TRUMPET NARCISSI

The commercial florists have been foremost to give the Narcissi or Daffodils the attention due them. They have learned how easily and successfully these lovely flowers may be forced into bloom during winter, and how fascinating and lasting are the blossoms. They may be planted in pots or bulb pans 6 inches or more in diameter, several bulbs in each, according to size. Treat in the same manner as hyacinths.

New Narcissus Poetaz Hybrids

N. poeticus ornatus X N. polyanthus varieties

By crossing these two classes, Narcissus poeticus ornatus being the seed parent, our growers have succeeded in obtaining a perfectly hardy strain of bunch-flowered Narcissi. The individual flowers have all more or less the Poeticus shape and size. Besides being hardy, this class has the merit that they have not inherited the strong, disagreeable scent of the Tazetta Narcissus. They are equally valuable for bedding and forcing. A bed of these Narcissi is simply covered by a dense mass of flowers. They force extremely easy. This is an entirely new strain, and has no similarity with varieties of Narcissus known heretofore. The following we consider the best of this lovely type:

Alsace. Petals pure white, with yellow eye; when bursting into flower the eye is slightly edged reddish. Broad, large of true Poet form; one of the earliest. Has three flowers on a stem. 10 cts. each, \$1 per doz., \$6.50 per 100, \$60 per 1,000.

Elvira. Pure white, with yellow eye; large flower of a remarkably good substance. Long-stemmed, and a good keeper; four doz., \$2.50 per 100, \$22.50 per 1,000.

<u>Ideal.</u> Perianth white, with dark orange eye; large truss bearing six to seven flowers; beautiful, striking color. 5 cts. each, 50 cts. per doz., \$8 per 100.

Irene. Perianth pure yellow, orange eye. Eight or nine flowers on a stem. 60 cts. per doz., \$4.75 per 100, \$45 per 1,000.

BODDINGTON'S "QUALITY" MIXTURE OF SINGLE NARCISSI

This mixture does not contain the very cheapest sorts, and will be found very fine. 20 cts. per doz., \$1 per 100, \$9.50 per 1,000.

Boddington's "Quality" Lily-of-the-Valley

The Lily-of-the-Valley is among the best-known and most popular flowers, and is chaste and beautiful for all occasions. We make arrangements for only the best-ripened and matured three-year-old pips.

New crop of Lily-of-the-Valley should always be frozen before forcing Boddington's "Wedding Bells" brand, being specially selected, is superior for first-crop; will convince the most critical grower of its superiority over brands usually offered for early forcing. \$2.25 per 100, \$20 per 1,000.

Lily-of-the-Valley from Cold Storage

We import large quantities of the best grade of Valley for forcing, which are put in cold storage immediately upon arrival and kept perfectly dormant. These pips can be shipped any day of the year and can be brought into full flower in three weeks from time of planting without undue forcing, and with foliage. We recommend these for flowering up to Christmas. Soak in water for twelve hours, then pot or box up and place in a temperature of 60 to 70 degrees. \$1 per bundle of 25, mailed free; \$3 per 100, \$25 per 1,000.

CALLAS

Calla Æthiopica. The well-known white Calla Lily. We offer a fine lot of dry roots, with center shoots ready for forcing.

6 inches across; the spike, or spadix, is about			
to inches long, and ebony-black	10	I 00	

FREESIAREFRACTAALBA, etc.

Of all South African flowering bulbs, the Freesia is doubtless the best known and most esteemed. The gracefully branched, fragrant flowers are of long duration, and, being freely produced, are profitable for commercial purposes, and satisfactory to amateurs. If planted early, they may be had in bloom by Christmas. Plant eight to ten bulbs in a 6-inch bulb-pan, covering them one inch. The peculiar habit, its delicious perfume and great value for cutting, have made it immensely popular.

Doz. 100 1,000

Freesia, Fischer's Purity

A grand acquisition to the Freesias, and for the grower, as a cutflower or pot-plant, no one should be without a few bulbs of this delightful variety. Flowers, which are snowy white, of large size, are borne in great profusion on stems 2 to 2½ feet, which grow upright and stiff; are excellent for cut-flower purposes. First-size, 35 cts. per doz., \$2.50 per 100; \$20 per 1,000. Mammoth bulbs (very scarce), 50 cts. per doz., \$3.25 per 100, \$30 per 1,000.

Freesia, Boddington's Pink

Soft rose, and exceptionally fragrant. As easily forced and grown as the white variety, of which it is an excellent companion. Bulbs very scarce. Large bulbs. 40 cts. each, \$4 per doz., \$30 per 100.

GLADIOLUS COLVILLEI

Delivery in October and November

The "Colvillei" section should not be confused with the "Gandavensis," or large-flowering Gladiolus. The Colvillei has much more slender spikes and daintier flowers, which are very pretty for cutting and arranging in vases with ferns and other foliage. Florists often plant these in their carnation beds.

Fiery Knight. Novelty. This is a specially striking and beautiful variety, and we can highly recommend it for all purposes. Dark scarlet, flaked violet-carmine. 50 cts. per doz., \$3.75 per 1000, \$35 per 1000.

Delicatissima superba. Pure white, large, bright carmine blotch. 30 cts. per doz., \$2 per 100,

Fairy Queen. Carmine-red, white blotch, carmine bordered. 20 cts. per doz., \$1.25 per 100, \$10 per 1,000.

Fire King. Orange-scarlet, purple blotch, purple-bordered; a beautiful variety. 50 cts. per doz., \$2.75 per 100,

Pink Perfection.

Peach Blossom.

pink, on the order of the Killarney Rose. 25 cts. per doz., \$1.25 per 100, \$10 per 1.000.

A recent introduction, and the nost beautiful of the Colvillei type of Gladiolus. Lovely soft the Killarney Rose. 25 cts. per doz., \$1.50 per 100, \$10 per 1,000.

The Bride (Colvillei alba). This lovely white miniature Gladiolus makes a useful cut-flower for early spring use; will stand forcing. 20 cts. per doz., \$1.25 per 100, \$10 per 1,000.

20 cts. per doz., \$1.25 per 100, \$10 per 1,000. **Blushing Bride.** The most beautiful delicate pink Gladiolus known for early forcing. It is sure to meet with great demand when better

known. 20 cts. per doz., \$1 per 100, \$7,50 per 1,000.

Ackermanii. New. Salmon-orange, with white blotches, edged scarlet; very handsome. 25 cts. per doz., \$1,50 per 100, \$12 per 100.

Queen Wilhelmina. Blush-white, with conspicuous blotches of cream, with scarlet margins. 40 cts. per doz., \$2.75 per 100, \$25 per 1,000.

Sappho. Large; white, shaded pale lilac, with faint, creamy blotches, edged violet. 20 cts. per doz., \$1.25 per 100, \$10 per 1,000.

Gladiolus Gandavensis Hybrids

Many gardeners plant these in boxes, or among their carnations, in the winter. They are excellent for decorative purposes, and realize good prices, either wholesale or retail. Gladiolus are a good catcherop and take up but little room. The following are the best for this purpose:

NERINE (Amaryllidaceæ). These popular South African bulbous plants are among the most charming and most useful of all early winter-flowering plants. Coming into bloom, as they do, at a time when bulbous flowers of real choiceness are scarce (October and November), we find that Nerines amply repay the little care and attention which they require. Same cultural directions as amaryllis.

Coruscans major. Scarlet. 65 cts. each, \$6.50 per doz., \$50 per 100. Fothergilli major. Vivid scarlet; a grand Nerine. 65 cts. each, \$6.50 per doz., \$50 per 100.

Sarniensis (The true Guernsey Lily). Color deep rose. 35 cts. each, \$3.50 per doz., \$25 per 100.

ALL ABOVE READY FOR DELIVERY IN AUGUST

MISCELLANEOUS BULBS FOR INDOOR FLOWERING, continued

ORNITHOGALUM beautiful variety, throwing up a tail spike bearing numerous large, milk-white, star-shaped flowers, with a black center, and having a distinct, aromatic perfume. They are decidedly pretty and interesting when grown in the garden, but are more largely grown for greenhouse and window decorations, being of the easiest culture. 5 cts. each, 25 cts. per doz., \$1.50 per 100.

RANUNCULUS, Boddington's Giant. Gorgeous double flowers, easily grown in pots for winter a 6-inch bulb-pan; they should be covered one inch. The colors include shades of white, yellow, crimson and purple, some being almost black.

Giant French. Mixed colors. 20 ets. per doz., \$1 per 100. Giant Persian. Mixed colors. 20 ets. per doz., \$1 per 100.

Giant Turban. Mixed colors. 20 ets. per doz., \$1 per 100.

SPARAXIS. Beautiful flowers about 2 inches across, borne on long, graceful spikes; the colors are of the tigered, blotched, spotted, streaked and flushed in the most diverse and pleasing manner. The bulbs are not hardy, but do exceptionally well when grown in the conservatory or house in pots or in coldframes, and flower during the winter and spring months.

10 Choice Named Varieties. 25 cts. per doz., \$1.50 per 100. Choice Mixed Colors. 15 cts. per doz., 75 cts. per 100.

TROPAEOLUM tricolorum. Scarlet tube, yellow center. tipped black. The stems are usually trained on wires, but they may be allowed to fall down from a pot or basket. The sunniest part of the greenhouse should be devoted to T. tricolorum. 10 cts. each, \$1 per doz., \$7.50 per 100.

TRITELEIA uniflora (Spring Star Flower). 15 ets. per doz., 75 cts. per 100, \$6 per 1,000.

Amateurs Attention! Something New! Growing Bulbs in Fiber

THE IDEA OF GROWING BULBS IN FIBER WAS A NEW ONE FOR THIS COUNTRY WHEN WE OFFERED IT FIVE YEARS AGO, BUT IT HAS BEEN PRACTISED SUCCESSFULLY IN ENGLAND FOR MANY YEARS

A most interesting method of growing bulbs is to place them in bowls, hyacinth glasses and jardinieres filled with prepared fiber; far better results for home decoration may be obtained in this way than by using ordinary potting soil.

For this system of culture no drainage is necessary, and the bowls which are specially made for the purpose are not pierced with the usual holes for drainage. They are non-porous, and may be placed on tables and columns, or they can be used in halls and corridors without the slightest risk of injury.

The fiber is perfectly clean to handle, odorless, and remains sweet for an indefinite period.

Any receptacle may be used for the purpose provided it is non-porous, but the bulbs to be planted in them should be suited to their size. Crocuses, Scillas, Snowdrops and Grape Hyacinths are available; also Tulips, Hyacinths and Narcissi. It is better not to mix different varieties of bulbs in one bowl unless simultaneous flowering can be assured.

This specially prepared fiber we offer requires moistening only before use. Having selected suitable receptacles for the bulbs to be grown, place a few pieces of charcoal (which we also supply with the fiber) at the bottom of the bowl. Then cover the charcoal with moistened fiber according to the depth of the bowl, placing the bulbs in position so that their tips reach to within a half inch of the rim. The spaces between and around the bulbs should be filled with moistened fiber, carefully firmed in by hand. The bulbs will require practically no attention for the first few weeks, and may be stood in a warm, airy position, but on no account must they be shut up in a close cupboard.

If the fiber has been properly moistened, there will be no need to give water until the shoots are an inch or so long, but great care must be taken not to allow the fiber to dry, otherwise the flower-buds become blind. The surface of the fiber should always look moist; but, if too much water has been given, the bowl may be held carefully on its side so that the surplus water may drain away. As the growth increases, more water will be required, and as much light as possible, to insure sturdy foliage.

This fiber also answers admirably instead of water for Hyacinths grown in glasses, but care should be taken to fill the glasses as lightly as possible with the compost; if packed in tightly, root-growth is liable to push the bulbs out of position.

Prepared fiber, one-quarter bus. \$1, one-half bus. \$1.50, bus. \$2.50.

SPECIAL OFFERS. 3 Roman or Dutch Hyacinths and 1 Art Jardiniere; or 6 Tuilps, red, white or yellow, and 1 Art Jardiniere; or 5 Paper-White Narcissi and 1 Art Jardiniere; or 4 Narcissus Golden Spur (yellow) and 1 Art Jardiniere; or 3 Chinese Sacred Narcissi and 1 Art Jardiniere, with sufficient fiber and charcoal to grow any of the above collections, for \$1, 3 for \$2.75. Write for special price to clubs. If wanted by parcel post, add 30 cts. for each collection.

SPECIAL NOTICE. To induce the growing of bulbs in fiber, we will make the following offer of prizes for photographs of bulbs grown and flowered in fiber, to be submitted not later than May 1, 1915.

To those who have Jardinieres of their own we can highly recommend the "COLD-STORAGE" LILY-OF-THE-VALLEY, quoted on page 12, which we can supply at all seasons of the year. No special culture is required, and it will flower in a temperature of 60° to 70° in about thirty days. Grow some to present to your friends at Christmas, or any other seasonable time; they will be unique and acceptable.

Lilies for Growing and Forcing Under Glass in the Greenhouse, Conservatory or Sunny Window

Lilies should be potted immediately upon receipt, if intended for growing in pots or for forcing. The soil should be rich, the pot well drained. The bulb should be set about half-way below the surface or rim of the pot and lightly covered with soil. After potting, give a thorough watering and set outside in a coldframe or shady situation; then cover with ashes or long straw. After they have stood from three weeks to a month, bring into the house, allow plant to grow above pot 4 to 6 inches, then fill pot with soil to within 1 inch of top of pot, and force gently. After showing buds, a higher temperature may be used.

LILIUM CANDIDUM (St. Joseph or Annunciation Lily)

August Delivery

This is the old-fashioned garden Lily. Can be forced for Easter and is perfectly hardy, blooming in the open ground in June. The many snow-white flowers, borne on a stem 3 to 4 feet high, make this Lily most effective. This variety should be planted in the fall, from the fact that it makes a winter growth. See illustration on front cover. 15 cts. each, \$1.50 per doz., \$12 per 100. Monster bulbs, 20 cts. each, \$2 per doz., \$16 per 100.

JAPANESE EASTER LILIES

Lilium longiflorum Formosum (Japan-Grown) Ready for delivery in August

The wonderful new Easter Lily from the island of Formosa. Early; easy to grow and free from disease. This Lily should be grown in a cool house, temperature 60° to 65°, and as it starts into bloom quite early, and is continuous rather than a cropper, it will be found very useful both for cutting and decorative purposes.

MISCELLANEOUS BULBS

For Outdoor Planting, Naturalizing in Beds or Borders, or Interspersing with Other Bulbs

CROCUSES

All lovers of a garden are familiar with the brilliant display which can be obtained from Crocuses in the opening days of spring. The planting may be in groups or lines of distinct color, but in every instance a massive effect should be aimed at. It only fritters away the bulbs to plant singly or in small numbers.

CHIONODOXA (Glory-of-the-Snow). The most beautiful of dwarf, blue, spring flowers, resembling those of *Scilla Sibirica*, but larger, slightly taller, and more handsome. The Chionodoxa is very hardy, thriving in any ordinary garden soil and in almost any situation. The bulbs continue to flower from year to year. It is also excellent for forcing. Doz. 100 1,000 Boissier. Large-flowering; blue; extra fine... \$0 35 \$2 50 \$20 00 Luciliæ. Flowers of brilliant sky-blue, with a white center..... I 25 II 00 Sardensis. CAMASSIA esculenta (Indian Quamash). Hardy, thriving in sheltered and partially shaded situations; flowerstalks 2 to 3 feet high and bear twenty or more large blue flowers, each 2 inches across. 15 cts. per doz., \$1 per 100, \$7.50 per 1,000. **Esculenta alba.** White variety of above. 15 cts. each, \$1.50 per

doz., \$12 per 100. Cusiekii. Tall spikes, covered with pale lavender, star-like flowers;

very pretty. 10 cts. each, \$1 per doz., \$7.50 per 100.

ERANTHIS hyemalis (Winter Aconite). The Winter Aconite ground with gilt spangles in the bleakest days of February. Any soil or situation will suit this flower, and it should be planted in large patches within view from the windows. 15 cts. per doz., \$1 per 100, \$7.50 per 1,000.

EREMURUS. Majestic, tuberous-rooted plants. A noble ornament in the flower-garden or on the lawn. The flowers are very fragrant and closely arranged on stately spikes 6 to 10 feet high, forming a magnificent column of bloom during June and July. Give a sunny position, sheltered from gales; plant the tubers in the fall, while dormant, and set about 8 inches deep. Although hardy, it will be safer in northern states to protect with 4 to 6 inches of leaves, straw, manure or similar covering to prevent the young growth, which starts very early, from being tipped by late freezes. Strong, flowering roots, that is, roots that will flower the the first season.

Robustus. Delightful rosy-pink..... 6 00 Bungei. Beautiful golden yellow. One of the scarcest and most lovely of the Eremurus..... I 25 I2 00 Elwesianus. Soft pink, with bands of deeper color down the middle of segments...... I oo IO OO

Collection of one each of above for \$3; 3 collections for \$8

ERYTHRONIUM (Giant Dog's-tooth Violet). Beautiful plants, perfectly hardy; the foliage is

charmingly variegated, and a mass of fifteen or twenty plants is a pretty sight even when not in flower; but when the graceful flowers are in bloom the effect is matchless. The plants luxuriate in rather moist, partially shady positions, and do very nicely when grown in pots for winter blooming.

Americanum. Large, cream-colored flowers with Doz. maroon band at base; leaves richly mottled; six to ten flowers on a stem are common.................................\$o 75 \$5 00

FRITILLARIA Meleagris (Snake's Head, or Guinea Hen Flower). An elegant species, growing from 10 to 18 inches high, bearing in spring curious, drooping, bell-shaped flowers, most of which are very oddly marked, many being checkered and splashed white and purple, cream and maroon, etc. Perfectly hardy and splendid for naturalizing, especially in semi-shaded places. Ten named varieties. 5 cts. cach, 40 cts. per doz., \$2.50 per 100; mixed colors, 10 cts. for 3, 30 cts. per doz., \$2 per 100.

Fritillaria Meleagris alba. Pure white. 5 cts. each, 40 cts. per doz., \$2.50 per 100.

INCARVILLEA Delavayi (Hardy Gloxinia). This comparatively new perennial from northern hardy in the United States. We recommend, however, a liberal mulching where left out during winter. The tubers may be lifted in autumn and stored in the same manner as dahlias and replanted in spring. The foliage resembles that of the acanthus, while the blossoms appear like clusters of pink gloxinias. It is extremely decorative and quite easily grown. Strong roots, 10 cts. each, \$1 per doz., \$7.50 per 100.

LEUCOJUM. Produces flowers like monster snowdrops; very graceful in growth, having the delicate fragrance of the violet. It is one of our earliest spring flowers, with white blossoms distinctly tipped green, handsome in outline and prized for bouquets. They should be grown in quantities in the horders or in spots on the edges of shrubbery, where they are beautifully effective, and when established produce enormous quantities of flowers.

Doz. 100 Vernum (Spring Snowflake)......\$0 20 \$1 25 \$10 00 Æstivum. A snow-white flower resembling the snowdrop, but larger..... 15 I 00

LILY-OF-THE-VALLEY. Large clumps of Lily-of-the-Valley for outside planting and naturalizing. These clumps will throw from fifteen to twenty spikes of flowers. 25 cts. each, \$2.50 per doz., \$20 per 100.

MONTBRETIA. Giant Montbretia, Star of the East. Orange-yellow, with lemon-yellow eye; of splendid constitution and boldly erect habit. We cannot speak too highly of this plant, which is undoubtedly the finest of Mr. Davison's hybrids. \$4 each, \$40 per doz.

Giant Montbretia, Prometheus. Each Doz. 100 1,000 Height 3 to 4 feet; flowers larger than any other Montbretia; color rich orange, with crimson spots at the base \$0 75 \$7 50 of petals.

Giant Montbretia, George Davison. Grows 3 feet high, bearing lovely pale 10 75 \$5 00 orange-yellow flowers 3 inches across...

Palmata rosea. Deep pink; hardy. An excellent companion for the white varieties. 15 cts. each, \$1.50 per doz., \$10 per 100.

TRILLIUM grandiflorum (Great American Wood-Lily). Most beautiful American plant. Perfectly hardy, growing and flowering profusely in partially shaded nooks about the lawn, under trees, etc. The flowers are large, of the finest white, changing in a few days to soft rose. 10 cts. each, 65 cts. per doz., \$5 per 100. **Erectum.** This is the purple wood-lily, the earliest to flower. 10 cts. each, 75 cts. per doz., \$6 per 100.

Autumn- and Winter-Blooming Crocuses

Exceedingly beautiful Crocus-like flowers flowering from September to November. These are worthy of a place in every garden. Bulbs are ready for delivery in August and must be planted immediately.

Are you not astonished to learn that there are hardy Crocuses which will bloom outdoors in the North between November and March with no protection whatever? Most of them are from the Holy Land, and all should be planted as early as possible in the autumn. The dates given below are the earliest they have been known to flower, but even if they do not bloom until March they are well worth while, for they will usually be seen in bloom amid the snow. The bulbs should be extensively planted, and the risk of losing them can be greatly lessened by planting them in the sunniest and most sheltered nooks.

We heartily recommend their use by the thousands on southern estates, especially winter homes in the Carolinas and Georgia, where they will glorify the otherwise barren month of January. We believe, also, that they will succeed even in Canada, though blooming at the end of winter. The time of bloom depends chiefly upon the openness of the winter. Winter flowers are certainly exciting, because of the uncertainty about the time of bloom, and what can be more interesting than to find flowers outdoors in bloom in your own home grounds right in the middle of winter! Several of these varieties are the very latest introductions.

JAPANESE IRIS

(Iris Kampferi)

The Japanese Iris is the most showy and strikingly beautiful of all the large family of Iris; and very few flowers, the orchid not being excepted, surpass this unique flower in size and gorgeousness and variety of color, which ranges from snow-white to the deepest purple, striped, variegated and multicolored in the greatest profusion of coloring.

The collections which we offer below are American-grown, thoroughly acclimated and hardy and true to color and name, which

is rarely evident in the imported Japanese stock.

The plants we offer are furnished with four to five shoots, and all will flower the first season after planting, guaranteeing an immediate and showy effect. Delivery can be made now or any time desired. Early fall planting is recommended, however, as it gives the plants an opportunity to get established before the severe weather sets in.

The Japan Iris will succeed anywhere in a good rich soil, though

a moist position is preferable.

DOUBLE JAPANESE IRIS

Beauty. One of the best; pure white; dwarf.

Chameleon. Dark reddish pink, striped and mottled white.

Crystal. Pale violet, slightly veined white.

Gold Bound. Pure white; one of the best.

Hannibal. White ground, veined and suffused with purple, light purple center.

Mount Hood. One of the finest blues.

Mr. Fell. Silvery white, veined violet, violet center.

Oriole. Magnificent crimson, with golden center.

Princess Clothilde. White, veined lightly pink, center light violet.

Pyramid. Lilac-blue, veined with white center on each petal.

Robert Craig. French gray, veined violet.

Victor. White, veined violet-purple.

The above collection of 12 varieties for \$1.50; 3 collections for \$4. Price of any of the above varieties, 15 cts. each, \$1.50 per doz., \$10 per 100.

SINGLE JAPANESE IRIS

Anna Christ. Pale lavender, slightly veined, center white and yellow; very large flowers on long, stiff stems.

Conde. Violet-purple, shading to deep, each petal edged silver, center deep purple and yellow. A most effective Iris, and blooms with great freedom.

Helene von Siebold. Reddish, veined white, yellow center. A strong, vigorous plant.

Norane. Fine violet-color, with gray vein marks darker toward the center.

Quakeress. Blue. The effect is very quiet and refined, and clearly shows the significance of its name.

Topaz. White, overlaid silvery pink, yellow center. Strong, vigorous, blooming profusely.

Tortoise. Magenta, flaked and dotted with white.

Venus. Pure white; very large flowers on long stems.

The above collection of 8 varieties for \$1; 3 collections for \$2.50. Price of any of the above varieties, 15 cts. each, \$1.50 per doz., \$10 per 100

ENGLISH IRIS (Iris Anglica)

English Iris are specially adapted for planting and naturalizing. The flowers are nearly as large as the Japanese Iris, and colors are unique and various. They grow from 18 to 20 inches high and are perfectly hardy. They flower after the German Iris and before the Japanese, making a good succession of bloom. We offer named varieties as follows:

Argus. Pink and white.

Bleu Celeste. Sky-blue.

Couleur Cardinal. Dark velvety blue.

Duke of Richmond. Magenta.

Mont Blanc, Pure white.

Othello. Magenta-purple. Thackeray. Rich claret-color Tricolor. White, blue and red. Washington. Pale lavender, mottled blue.

Bleu Mourant. Blue and white.

Price of the above, 35 cts. per doz., \$2 per 100, \$18 per 1,000. Splendid Mixture, 20 cts. per doz., \$1.25 per 100, \$10 per 1,000

SPANISH IRIS (Iris Hispanica)

The true value of the Spanish Iris appears to have been overlooked in this country. Their great diversity of color, and being equally adapted for forcing for winter blooming and for massing in beds for spring flowering, make them one of the most useful bulbs to plant.

Belle Chinoise. Pure yellow. British Queen. Large; white; very fine

Cajanus. Deep golden yellow. Chrysolora. Pale yellow.

Czar Peter. Porcelain blue; extra fine.

Darling. Blue; very fine; early.

King of the Blues. Finest blue. La Grandesse. The best and purest white.

Louise. Pale blue, slightly spotted; fine flower.

Marie. One of the best blues. Snowball. Very large; white.

Doz. 100 Extra-selected bulbs of above named varieties. \$0 25 \$1 25 \$10 00 Boddington's Choicest Mixed, all colors..... 15 1 00

GERMAN IRIS (Iris Germanica)

The true "Fleur-de-lis," the national flower of France, and one of the most desirable early spring-flowering plants. They are perfectly hardy, grow and bloom luxuriantly, especially if planted near the edges of ponds or low, moist grounds, or if plentifully supplied with water, producing large, fragrant, orchid-like flowers of exquisite colors.

Dr. Glook. Yellow.

Fragrans. White, falls penciled blue.

Florentina. Creamy white, fragrant and early; fine for cutting.

Gypsy Queen. Light bronze, falls purplish red.

Henriette. Yellow. Mme. Chereau. Pearly white, daintily edged lavender.

10 cts. each, \$1 per doz., \$7.50 per 100. Collection of 11 varieties

Parkmani. Uprights pure lemon; falls white veined purple.

Souvenir. Uprights brilliant yellow; falls freely veined network of yellow, buff and purple.

Spectabilis. Early and free; blue.

Stella. Light blue.

Velveteen. Yellowish buff; falls intense plum-purple.

5 00

5 00

Iris pallida Dalmatica. This is the grandest variety of all the German Iris. Color deep, clear lavender; very large; flowers sweet-scented. This Iris should be planted largely where cut-flowers are in demand, as it is certainly the best of its class. A grand variety for massing in borders. It is superb. 20 cts. each, \$2 per doz., \$15 per 100.

MOURNING IRIS (Iris Susiana)

The groundwork of the flower is silvery gray, so mottled and veined and lined with dark chocolate and black as to leave one under the impression that it is only a silvery lining showing through. 15 cts. each, \$1.25 per doz., \$9 per 100.

MISCELLANEOUS IRISES

Alata (Scorpion Iris). About 1 foot high, with broad Doz. leaves. The flowers are very large (4 to 6 inches across), of lilac-blue, with blotches of light yellow spotted with a darker shade		00
Florentina. Very beautiful pure white, slightly shaded with blue and with a yellow beard, deliciously violet-		
scented 50	3	50
Histrioides. Large, bright blue flowers, dark spots 1 35	9	00
Pavonia (Peacock Iris). Pure white with a bright blue spot on each petal. Fine for pot or garden culture.		
1 foot 50	3	50
Pumila. Six Named Varieties. These beautiful dwarf Irises are excellent for edging; height, 10 inches;		
white, yellow and blue each, 10c 75	5	00
Mixed 60	4	00

Sibirica. A deep blue, slender-growing Iris.....

Sibirica alba. A white variety of above.....

Sibirica atropurpurea. Deep purple.....

Each Doz.

PEONIES

If you plant Peonies in the fall they will bloom next spring

PAEONIA CHINENSIS

The following collection of 25 Peonies was selected from over one hundred blooms of varieties submitted to us last June, and we consider them the "Cream of the Market," covering a wide range of color, from purest white to darkest crimson. They will certainly remind you of grandmother's garden. All are Americangrown roots, and we can make delivery September 1.

Carnea striata. Pale flesh, shading to almost pure

white. 25 cts. each, \$2.25 per doz., \$16 per 100. Couronne d'Or. (Calot.) Very large and full imbricated flower of superb form; color white, reflecting yellow, center petals bordered with carmine, golden stamens showing through and lighting up the flower. Solidly and perfectly built from edge to center; fragrant; a good grower and reliable bloomer. It is, in our opinion, the attainment of perfection in the Peony. 40 cts. each, \$4 per doz., \$30 per 100.

Delachei. Deep crimson-purple; one of the best dark Peonies; late midseason. 30 cts. each, \$2.75 per doz., \$20 per 100.

If a larger collection is needed, write for varieties and

PAEONIA OFFICINALIS

This is among the hardiest and most popular species of the extensive Pæonia family, and is one of the commonest to be found in gardens, and the first to flower; also very sweet-scented. The varieties offered below are the most typical, and beautiful for either massing in borders or as individual specimens.

Rubra plena. Deep crimson; can be forced for Easter. 20 cts. each, \$1.75 per doz., \$12 per 1co.

Alba mutabilis. White. 25 cts. each, \$2 per doz., \$15 per 100.

Rosea. Rose; also a good forcer. 20 cts. each, \$1.75 per doz., \$12 per 100.

Border of Herbaceous Chinese Peonies

COLLECTION. One of each of the above 25 superb Paeonia Chinensis for \$9; two collections for \$15; three collections for \$20

Hardy Perennial and Old-Fashioned Flowers

THAT CAN BE PRODUCED FROM SEED SOWN IN LATE SUMMER AND FALL

Cultural Directions.—Perennial seeds sown in the late summer and fall will flower the following year—spring, summer or fall, according to the variety. The seed should be sown carefully, the same as any choice seed, in well-drained pots, or shallow boxes or pans. Soil should be light and fairly rich, with about one-eighth coarse sand added; after sowing, cover lightly with well-sifted soil. When the plants have become large enough to handle, "prick out" about 2 inches apart, more if you have the room, in shallow boxes or frames, and again, when large enough, set out in the open in well-prepared ground. If this is done in the fall, the young plants should be lightly covered with leaves or short stable manure; this will act as a slight protection, and will be conducive to their thriftiness and next season's growth.

Boddington's Quality Perennial Seeds for Wild Gardens and Woodlands

SPLENDID MIXTURES OF MORE THAN ONE HUNDRED BEAUTIFUL VARIETIES

These mixtures contain many beautiful and interesting perennials, furnishing a profusion of bloom from early summer until frost. They are intended to produce a display without the care necessary to regularly kept flower-beds. We sell annually large quantities of these seeds for beautifying the surroundings of seashore and country hotels and residences. They not only beautify the grounds, but afford many varieties of flowers useful to cut for house decoration. Owing to the large number of varieties comprising the mixtures, one finds some new variety of bloom almost every day, and it is most interesting to watch for them.

Dwarf Wild Garden Flower Seeds. ½-oz. pkt. 25 cts., oz. 50 cts., ¼lb. \$1.75, lb. \$6 postpaid. Tall Wild Garden Flower Seeds. ½-oz. pkt. 25 cts., oz. 50 cts., ¼lb. \$1.75, lb. \$6, postpaid.

ORNAMENTAL GRASSES

Blue Scabious) 2 Lavender Summer 1/4 Oz. \$1. 10 The best 10 Perennial Varieties, collection, 90 cts., single pkt. 10c.

Boddington's "Quality" Giant Pansies

Pansies, Sim's Gold Medal Mixture

Pansy Seed, to give the best flowering results in the spring, should be sown during July and August. For cultural directions see Perennial Flower seeds page 20.

Our Giant Pansy Seed during the past season gave unprecedented satisfaction, and son gave unprecedented satisfaction, and every order booked last year was duplicated and increased this year. All the testimonials received mentioned specially the high grade of flowers—color, form and size of the blossoms. This year, by adding improved types, intending customers can absolutely roly on a durification of last expectable process. rely on a duplication of last season's success.

BODDINGTON'S "CHALLENGE" PANSIES

(All Giants)

This Challenge mixture contains all the finest Giant strains of the leading Pansy specialists in the world—the Giant selfcolors, the Giant striped and margined, and the Giant blotched—all carefully mixed in proportion. 25 cts. per half-packet, 50 cts. per packet, \$2.50 per quarter-ounce, \$4.25 per half-ounce, \$8 per ounce.

Pansy, Sim's Gold Medal Mix-

ture. Was awarded the First Prize and Gold Medal at the International Horticultural Exhibition, held at the Grand Central Palace, New York City, April, 1913. This splendid mixture is the result of years of painstaking cultivating and selecting on the part of Mr. William Sim (renowned for Sweet Peas), and we are offering seed from the originator for the first time. Is undoubtedly the finest achievement in Pansy mixtures. Pkt. 75 cts., 3 pkts. \$2, 180z. \$5.

this specially fine strain of large and beautiful Pansies. We strongly urge our customers to give this new strain a trial, 360z. \$2.50, GIANT TRIUMPH OF THE GIANGS.

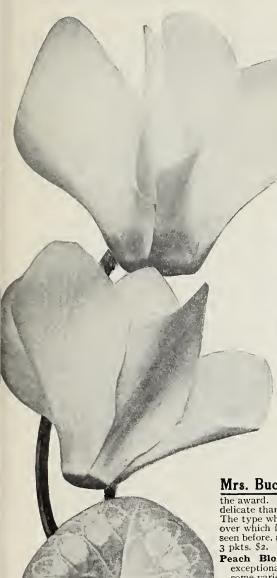

GIANT TRIUMPH OF THE GIANTS. A superb mixture of exceedingly large and beautifully marked Pansies. Pkt. 50 cts., 1/0z. \$3, oz. \$10.

Boddington's

Gigantic

Cyclamen

BODDINGTON'S GIGANTIC CYCLAMEN

The seed of Cyclamen is often sown too early in the year; from the middle of August to the end of September is the best time. The seedlings should be grown on to the flowering stage without any check whatever. When grown cool, the results are most satisfactory. Boddington's Gigantic Cyclamen are unequaled for size and quality of bloom. A magnificent strain of Cyclamen with flowers of extraordinary size and substance.

Gigantic White Butterfly. Pure white; immense flowers.

Gigantic Snowflake. The largest of all white Cyclamen. Gigantic Cherry-Red. Most brilliant and effective.

Gigantic Rose. Immense flowers of a pleasing shade of light rose.

Gigantic Pink. Exquisite shade of soft pink.
Gigantic Crimson. Most striking color; under artificial light appears to be almost luminous.

Gigantic Crimson and White. A magnificent flower of the largest type.

Gigantic Syringa-Blue. A charming color.

Gigantic Lilac. A very pleasing color, lighting up well at night.

Any of the above varieties, pkt. 50 cts., 100 seeds, \$2. Collection of 9 varieties as above, one packet each, \$4

Gigantic Mixed. A mixture of all the above varieties in proper proportion. Pkt. 50 cts., 100 seeds \$1.50.

PRINCESS MAY. A very pretty type of Cyclamen. Color pink, with suffused blotches of crimson at base of petals. Pkt. 50 cts., 100 seeds \$2.25.

SALMON QUEEN. Undoubtedly the most distinct and beautiful salmon-color found in Cyclameus. Pht. so cts. 100 seeds \$2.25

found in Cyclamens. Pkt. 50 cts., 100 seeds \$2.25.

Salmonium splendens. Fine salmon-pink variety. Pkt. 50 cts., 100 seeds \$2.25.

Rococo. The flowers, which are beautifully fringed, measure 5 inches in diameter. Pkt 50 cts. 100 seeds \$2.25.

ter. Pkt. 50 cts., 100 seeds \$2.25. **Bush Hill Pioneer.** A beautiful new feathered Cyclamen in various colors. Pkt. 50 cts., 100 seeds \$2.25.

Cyclamen Lehmania. (The new Butterfly Cyclamen.) The raiser claims that this novelty Cyclamen excels all other varieties both in form and color. Makes a charming decorative plant; sold in the following colors:

| Pkt. |

Seven Grand Cyclamens

Mrs. Buckston. It is not often that a Cyclamen is honored by the Award of Merit from the Royal Horticultural Society, but the exception in this case well merits the award. Cyclamen Mrs. Buckston is of a real salmon shade, a lovely tint somewhat more delicate than found in our "Salmon King," and similar to the famous carnation, "Enchantress." The type which has beautifully frilled petals must not be mistaken for the Butterfly Cyclamen, over which it is a great improvement. The flowers are immense, larger than anything we have seen before, and are most freely produced, the plants also being excellent growers. Pkt. 75 cts. 3 pkts. \$2.

Peach Blossom. An exceptionally hand-some variety of an intense rose-color. Pkt. 50 cts.

Purple King. The best of all crimson varieties and strikingly beautiful. Pkt. 50c.

Phoenix. Bright cherrycrimson flowers, freely produced. Pkt. 50 cts.

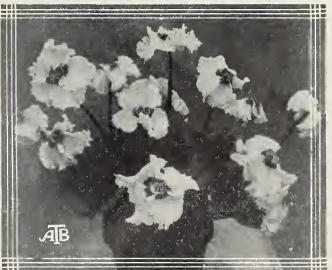

Rose of Marienthal. Soft shell-pink; a very pretty variety. Pkt. 50 cts.

Salmon King. One of the finest salmon sorts. Pkt. 5oc.

Vulcan. The rich crimson color is very striking, and contrasts admirably with the pure white of Butterfly. Pkt. 50c.

Collection of the preceding 7 for \$3

For other varieties of flower seeds for fall and late summer sowing see our 1914 Spring Garden Guide.

Cyclamen Lehmania

Quality" Winter-Flowering Sweet Peas

Cultivation. Winter-flowering Sweet Peas should not be sown too thickly; about one onnce to 25 feet is sufficient. Thin out to about 3 inches apart when plants are about 6 inches high; if wanted for Christmas, sow before the end of August; if wanted during January, February and March, about the middle of September; if wanted for Easter, about the first of November. For successful growing, a temperature of 40 to 45 degrees at night and 10 degrees higher in the day is considered best. Watch out for red spider, thrip and green fly. Feed when plants are in full bloom.

The Sensational Australian Spencer Winter-Flowering Sweet Pea

YARRAWA

We have been fortunate enough to secure a small quantity of this wonderful new Spencer Winter-flowering Sweet Pea from the raiser, Arthur Vates of Sidney, and now offer it for the first time in America. It is far superior to the prevailing Spencer types, the flowers being exceptionally large and well fluted and waved; in color it is almost a duplicate of Countess Spencer, a delightful light soft rose, which lights up beautifully at night. W. Atlee Burpee & Co. exhibited this variety at the International Spring Flower Show last spring, and it was awarded the First-off Specificate of the American Sweet Pea Society at that time. We offer this original stock till sold at \$1 per pkt. of 10 seeds, 3 pkts. for \$2.75.

ZVOLANEK'S WINTER-FLOWERING ORCHID SWEET PEAS, 1914 NOVELTIES

BRIDAL VEIL. Pure white. A cross between White Orchid and Wachtung; one of the earliest. Its size and purity of color make it one of the best. White-seeded.

BOHEMIAN GIRL. One of the finest pink selfs. The same shape as Mrs. A. A. Skach, but the color is three shades darker, with light scarlet blush. A new color in Sweet Peas.

MRS. JOHN M. BARKER. A new combination of colors. The standard is lilac, with glistening dark rose, wings light blue on white ground. One of the largest and most beautifully formed.

MRS. M. M. ANDERSON. Perfect orchid shape. Standard maroon, wings navy-blue. A cross between Le Marquis and Red Orchid.

ORANGE ORCHID. Standard orange, wings dark salmon-pink, beautifully colored and formed. A cross between Late Orange

Spencer and President Woodrow Wilson, in the fourth generation.

APRICOT ORCHID. Mostly apricot self. A cross between Miriam Beaver and Mrs. A. A. Skach.

GOLDEN ORCHID. Light yellow. A cross between Wachtung

and White Orchid, in the third generation.

All of these novelties are perfect orchid flowers. As most of them are crosses of the last four years, one or the other may not come true to color. The descriptions given here are Mr. Zvolanek's own, and great credit is due him for these creations.

Pkt. 15 seeds \$1, 3 pkts. for \$2.75. Collection one packet each of the above seven varieties \$5

ZVOLANEK'S WINTER-FLOWERING ORCHID SWEET PEAS OF 1913 INTRODUCTION

PINK-AND-WHITE ORCHID. Similar to Christmas Pink; of extra-large size.

WHITE ORCHID. Pure white; has stood the most critical tests. ORCHID BEAUTY. Dark rose-pink, with orange blush.

MRS. M. SPANOLIN. Double; white. Black-seeded.

VENUS. Standard slightly blush-pink; in winter more white.

LAVENDER ORCHID. Lavender-pink; very large.

LAVENDER NORA. Similar to Wallacea but flower as large again. MRS. A. A. SKACH. Beautiful, clear, light pink. Much larger than the original Countess Spencer and slightly darker.

Pkt. 25 seeds 50 cts., 3 pkts. \$1.25. Collection one packet each of the above eight varieties \$3

BODDINGTON'S EXTRA-EARLY CHRISTMAS WHITE, SNOWBIRD. An exceptionally early Sweet Pea for indoor flowering—will bloom six weeks after sowing. Color clear white, upon long stems; habit fairly dwarf, and of exceptionally free-flowering qualities. Without doubt, the finest early white for indoor planting. Pkt. 10 cts., 02. 35 cts., 1/4lb. \$1.

BODDINGTON'S CHRISTMAS PINK. This is the earliest and

most profitable and useful Sweet Pea in cultivation, as, by sowing the seed under glass in latter part of August, flowers can be cut from Thanksgiving on during the winter months. Pkt. 10 cts., oz. 35 cts., 4lb. \$1.

BODDINGTON'S CHRISTMAS WHITE. A companion to

Christmas Pink. Just as free and profuse a bloomer. Pkt. 10 cts., oz. 35 cts., 1/4lb. \$1.

Angelino. Self-pink; new variety. Pkt. 35c., oz. 50c., 1/4lb. \$1.50.

CANARY. Similar to Christmas White, but flowers are of an exeptionally good yellow. Pkt. 10 cts., oz. 35 cts., 1/4lb. \$1.

Christmas Meteor. Scarlet; fine, open, large flower. Pkt. 15 cts., oz. 50 cts., 14lb. \$1.50.

Christmas Stella Morse. Creamy buff standard, wings slightly tinged with pink. Pkt. 15 cts., oz. 50 cts., 1/4lb. \$1.50. LAMINGO. Color scarlet; free-flowering and early. Pkt. 15c.,

FLAMINGO. Color scarlet; free-flowering and early. Pkt. 15c., oz. 50 cts., ¼lb. \$1.50.
Florence Denzer. Pure white. Pkt. 10 cts., oz. 35 cts., ¼lb. \$1.

Le Marquis. This is the same color as Princess of Wales violet; has very large flowers. Pkt. 15 cts., oz. 50 cts., ½1b. \$1.50.

Miss Helen M. Gould. White, open flower; standard lilac, marbled. Pkt. 15 cts., oz. 50 cts., ½1b. \$1.75.

Miss Josey Reilly. Lilac; very large flowers. Pkt. 15 cts., oz. 50

cts., 1/4lb. \$.175 Mrs. A. Farenwald. Semi-orchid type, clear dark pink. Pkt.

Mrs. Alex Wallace. Lavender. Pkt. 15 cts., oz. 50 cts., 14lb. \$1.75. Mrs. Chas. H. Totty. Sky-blue; late. Pkt. 15 cts., oz. 50 cts., 14lb. \$1.7

Mrs. E. Wild. Carmine or dark pink. Pkt. 15 cts., oz. 50 cts., 4lb. \$1.7

Mrs. F. J. Dolansky. Daybreak-pink. Pkt. 15 cts., oz. 50 cts., 14 lb. \$1.7

Mrs. Hannan. Deep rose-pink of a very pleasing shade; medium flower. Pkt. 15 cts., oz. 50 cts., 14lb. \$1.75.

Mrs. James Wheeler. Salmon with orange tint; Unwin type. Pkt. 25 cts., oz. 75 cts., 1/4 lb. \$2.

Mrs. Wm. Sim. Salmon-pink. Pkt. 15 cts., oz. 50 cts., 1/4lb. \$1.75. Mrs. W. W. Smalley. Satiny pink. Pkt. 15c., oz. 50c., 1/4lb. \$1.75. Mrs. Zvolanek. Blue variegated; very pretty. Pkt. 15 cts., oz. 50c. Orange Bird. Orange with rose; large blooms. Pkt. 25 cts., oz. 50

cts., ¼lb. \$1.50.

Pink Beauty. Very large; rose-pink with orange. Pkt. 25 cts., oz. 50 cts., ¼lb. \$1.50.

Wallacea. An excellent layender variety, and one of the best of

its color for indoor flowering. Pkt. 15 cts., oz. 50 cts., ¼lb. \$1.75. Wachtung. Pure white; height 6 feet. Pkt. 10c., oz. 35c., ¼lb. \$1. Winter Cheer. Wavy, large, pure white flowers. Pkt. 25 cts., oz. 141b. \$2. 75 cts...

Wm. J. Stewart. Blue self. Pkt. 15 cts., oz. 50 cts., 1/4lb. \$1.75. Zvolanek's Pink. Very large flower; soft pink; very attractive. Pkt. 25 cts., oz. 75 cts., 1/4lb. \$2.

BODDINGTON'S "QUALITY" SWEET PEAS (For Fall Sowing)

It has become a practice among many gardeners and florists to sow Sweet Peas in the open ground in November. The following we consider the best color varieties for all purposes.

We consider the best color ranceres to an pin	1.01.001

Kinney Pump. (P. 143, fig. 24.) For distributing water and manure through the hose at the same time. \$2.
Lawn Sprinkler, "Cyclone." This low-down three-arm Sprinkler stands about I foot in height, is well made and runs easily, the head and arms nickel-plated and being on sled runners instead of legs, has made it very popular, the advantage being that they can be pulled over the lawn easily without damage to the turt. \$2.

Can be pulled over the lawn easily without damage to the turn. Sz. Combination. Made in iron with brass slide and thumb nut, nickel-plated throughout. When the brass slide is pulled back the usual full-circle spray results. When it is pushed forward, a half-circle spray is obtained. \$1.25.

Portable. This Sprinkler can be used as a fountain by changing the jet. 4-arm, \$3.75; 8-arm, \$4.50.

The Fountain. (P. 145, fig. 116.) Made of heavy brass, 8 inches in diameter. Easily moved over the lawn without turning off

in diameter. Easily moved over the lawn without turning off the water. \$1,

The Kopesay. (P. 145, fig. 115.) Used on Jamestown Exposition Grounds, 1907. Acknowledged by all users to be the acme of perfection in the sprinkling line. \$1 each, \$10 per doz.

The Turbine. (P. 145, fig. 117.) Simple and effective. \$2 cach.

The Twin Comet. The three upper arms revolve rapidly, sprink-

ling meanwhile, and carrying around a slowly revolving nozzle, which sprinkles the ground for a great distance. Height, 17 in. \$5 each.

Sprinklers, Scollay. (P. 143, fig. 25.) 8-oz. Large, \$1.25; small, 6oc.

Angle Neck. \$1.25. Stott Sprayer. (P. 143, fig. 26.) A splendid aid; sprays under

Stott Sprayer. (P. 143, fig. 26.) A splendid aid; sprays under foliage perfectly. \$1.50 each.

Syringe, "Abol." (P. 143, fig. 29.) The best brass hand-syringe manufactured, with angle-neck attachment. No. 6, \$7.50 each.

Syringe, Reed's Patent. (P. 143, fig. 30.) Extra-heavy brass syringe, 20 x 1% inches. English-made. Two roses and one jet, with quick-filling valves, \$7.50 each.

Schubert's Sprinkler. (P. 143, fig. 31.) Can be used for either watering or syringing; especially recommended for greenhouse purposes. \$1.50 each.

Turbine Shower Tree Sprayer. (P. 145, fig. 117.) Used with conspicuous success in the New York City parks. \$1.25.

Spray Nozzle, The Boston Graduating. (P. 143, fig. 33.) Throws a coarse or fine spray or a solid stream. 34-inch, 50 cts.; postage extra, 5 cts.

The Boston Rose Hose Sprinkler. (P. 143, fig. 34.) A wide-face

nozzle with numerous small holes, giving a gentle shower that will not disturb the soil. 3-in. face, \$1; 4-in. face, \$1.25.

Sprayer, Hand (Muratori's Patent). (P. 143, fig. 35.) Invaluable for spraying orchids and other plants hanging from the rafters of a greenhouse; especially adapted for ladies in the garden. Works

automatically by compressed air. \$12 cach.

Spray Nozzle, The Newport. (P. 143, fig. 36.) With a screw-lever the spray can be made as fine as dew, or with the force of a pelting rain. Excellent for getting under foliage of roses, palms, etc., where

force is needed to keep down red spider, etc. Brass. \$1 each.

Watering Pots, Haw's Pattern. (P. 145, fig. 111.) No. 0, 3-qt., shelf, 9-inch spout, one rose and extra joint, \$2. No. 1, 3-qt., japanned, two roses, \$2.50. No. 2, 4-qt., japanned, two roses, \$3. No. 3, 6-qt., japanned, two roses, \$3.50. No. 4, 8-qt., japanned, two roses, \$4. No. 5, 10-qt., japanned, one rose and spreader, \$4.50.

Watering Pots, "The Philadelphia." (P. 145, fig. 112.) With brass joints and two copper-faced roses. 6-qt. \$2, 8-qt. \$2.25,

10-qt. \$2.50, 12-qt. \$2.75. Watering Pots, French. (P. 145, fig. 113.) Brass handles and joints, two copper-faced roses; coarse and fine. 6-qt. \$2.50, 8-qt. 2.75, 10-qt. \$3.

Watering Pots, Strawberry or Shelf. (P. 145, fig. 114.) Galvanized; holds 3 qts., \$1.25.

Woodason's Atomizer. (P. 143, fig. 32.) For liquid insecticides. \$1.50 and \$2.50 each.

INSECTICIDES, FUNGICIDES, ETC.

Aphine. (P. 147, fig. 122.) Effective against plant-sucking insects, such as green, black or white fly; red spider, thrip, mealy bug, brown and white scale. Used as a spray or wash, diluted in water in the proportions as directed on each can. An excellent cleanser for house plants. ½pt. 40 cts., pt. 65 cts., qt. \$1, gal. \$2.50. Aphis Punk. A paper that has been thoroughly saturated with

nicotine. Used for fumigating, giving off dense fumes of nicotine.

Excellent for aplis, thrip, white and green fly, also red spider. For use in greenhouses only.) Pkg. 60 cts., \$7 for 12 pkgs.

Ant Exterminator. (P. 147, fig. 123.) Will destroy or drive away black ants from lawns, trees, plants, houses or other affected locality. Lb. tins. 80 cts.

Arsenate of Lead. (P. 147, fig. 124.) For spraying, etc. Lb. 30 cts., 2 lbs. 50 cts., 5 lbs. to 50 lbs. at 15 cts. per lb. Bug Death. (P. 147, fig. 125.) Non-poisonous. Effective where

paris green and other dangerous powders are employed. 5 lls 50 cts., 1212 lbs. \$1, 100 lbs. \$7.50.

Bordeaux Mixture. (P. 147, fig. 126.) Dry, 1-lb, box 25 cts.,

4 lbs. and over at 22 cts. per lb., 50-lb. keg \$10; liquid, pt. 30 cts., qt. 50 cts., 2 qts. \$1, gal. \$1.75.

Carter's Worm Killer. For worms in golf-greens, tennis-courts, etc. This powder can be applied at the rate of one-hall pound per square yard and thoroughly watered. 25 lbs. \$2, 50 lbs. \$3.50, 100 lbs. \$6.

Copper Solution, Ammoniated. (P. 147, fig. 127.) One quart of

solution to 25 quarts of water. Qt. \$1. Climax Lawn Sand. (P. 147, fig. 128.) Kills every weed that grows on grass lawns and also improves the grass. Full instructions for using with all packages. 3½-lb. tin can 60 cts., 7-lb. tin can \$1, 14-lb. tin can \$1.75, 28-lb. wooden keg \$3, 56-lb. wooden keg \$5.50, 112-lb. wooden keg \$9.

Cutworm Food (Warnecke's), The best exterminator of cutworms.

Directions on package. 5 lbs. 85 cts., 10 lbs. \$1.35, 100 lbs. \$8.50.

Fir Tree Oil. (P. 147, fig. 129.) Death to mealy bugs, red spider, green fly and all other insect pests. Pt. \$1, qt. \$1.75, ½gal. \$3. gal. \$5.50

Fir Tree Oil Soap, Stott's. (P. 147, fig. 130.) ½-lb. can 30 cts.,

2-lb. can 85 cts.

Fish Oil Soap. (P. 147, fig. 131.) Lb. 18 cts., 3-lb. box 40 cts., 25 lbs. \$3, 100 lbs. \$10.

Flowers of Sulphur. Lb. 10c., 10 lbs. 75c., 25 lbs. and over at 6c. lb. Fungine. (P. 147, fig. 132.) An infallible remedy for mildew, rust, wilt, bench-rot and other blights affecting flowers, fruits and vegetables, Highly endorsed by leading growers. It is equally effective under glass and out-of-doors. One gallon makes fifty gallons of spraying material. 1/2 pt. 30 cts., pt. 50 cts., qt. 75 cts., gal. \$2, 10-gal, keg \$15.

Gishurst's Compound. 50 cts. per box. Hammond's Grape Dust. (P. 147, fig. 134.) 5-lb. pkg. 35 cts.,

Hammond's Strape Busic (1, 144), fig. 1349, 3 see 156, 156-lb. kcg \$5.50.

Hammond's Slug Shot. (P. 147, fig. 135.) 5-lb. pkg. 35 cts., 10-lb. pkg. 60 cts., 100 lbs. \$5.50.

Hellebore Powder. (P. 147, fig. 136.) One ounce to three gailons.

Hellebore Powder. (P. 147, fig. 136.) One ounce to three gailons. 1-lb. box 25 cts., 2-lb. box 40 cts.

Imp Soap Spray. (P. 147, fig. 137.) Peculiarly effective against red spider on fruit, etc., rose bug, white, black and green fly, mealy bug, thrip, aphis, and other insect pests on fruit, flowers and foliage. Qt. 50 cts., gal. \$1.50, 5 gals. \$7.

Kerosene Emulsion. (P. 147, fig. 138.) Qt. 50 cts., gal. \$1.25,

5 gals. \$5.50.

Lemon Oil. (P. 147, fig. 139.) Pt. 50 cts., qt. 75 cts., ½gal. \$1.25, gal. \$2.25, 5 gals. \$10.

Nicoticide. (P. 147, fig. 140.) Directions on packages. Pt., suffi-

cient for 32,000 cubic feet, \$2.50, gal. \$15.

Nikoteen. (P. 147, fig. 141.) A thorough exterminator of insects.

Pt. bottle \$1.50, 10 pts. \$14.

Nico-Fume. (P. 147, fig. 142.) Packed in tins, 24 sheets 75 cts., 144 sheets \$3.50, 288 sheets \$6.50.

Nico-Fume Liquid. (P. 147, fig. 143.) Pt. \$1.50, 1/2gal. \$5.50,

Paris Green. (P. 147, fig. 144.) For the destruction of potato bugs. Lb. 50 cts., 5 lbs. \$2.25.

Scaline. An effective winter spray for San José and other scales; a summer spray for field and orchard work against aphis, red spider, thrip and various fungi. Qt. 75 cts., gal. \$1.50, 5 gals. \$6.25, 10-gal.

keg \$10, bbl. (50 gals.) \$37.50. **Scalecide.** (P. 147, fig. 145.) For spraying trees, etc. Gal. \$1,

drum of 5 gals. \$3.25.

Sodium Cyanlde for Edwards' Cyaniding Apparatus. (P. 147, fig. 146.) \$1.50 per lb.

Squito-Rid. An effective remedy for repelling mosquitos, both indoors and out-of-doors. It protects man and beast. ½pt.

75 cts, pt. \$1.25, qt. \$2. **Tobacco Dust.** The burning or dusting kind. 5 lbs. will fundate a house 100 x 25 feet. Put up in 100-lb. bags. \$4.

Tobacco Stems. 100-lb. bale \$2, 300 lbs. \$5.

Vermine. A soil sterilizer and germicide for all soil vermin, such as cut-, eel-, wire- and grub-worms, slugs, root-lice, maggots, etc. Pt. 65 cts. qt. \$1, gal. \$3, 5-gal. keg \$12.50.

Weed Killer, Target Brand. Quart can, sufficient to make 6 gallons of liquid, 50 cts.; gallon can, sufficient to make 25 gallons of liquid, \$1.50; 5-gal, keg, sufficient to make 125 gallons of liquid, \$5.

X-L-All Liquid Insecticide. English preparation for spraying harmless to very delicate plants; kills mealy bug, red spider, and all insect pests. Pt. 75 cts., qt. \$1.25, ½gal. \$2, gal \$5.50.

X-L-Ali Vaporizing Compound. An English patent claimed to be the most easy, effectual, and cheapest method of fumigating greenhouses and frames ever invented. In dry cake form, box of 80 cakes for \$10.50, 15 cts. per cake. Each cake sufficient for 1,000 cubic feet.

No. 1. \$8.00 bottle contains sufficient for 40,000 cubic feet of space.
No. 2. \$4.50 " " 20,000 " "
No. 3. \$2.25 " " " 10,000 " "
No. 4. \$1.25 " " " 5,000 "

Vaporizing Fumigator and Lamp for above, complete, \$1 50.

VAPORIZERS AND BELLOWS

Vaporizer, Campbell's Patent Sulphur. (P. 147, fig. 150.) Designed to vaporize sulphur in greenhouses without danger.
Most useful for killing mildew and other fungous diseases. Each

FERTILIZERS, MANURES, ETC.

ASHES, CANADA HARDWOOD. (P. 148, fig. 159.) Apply one to two tons to the acre, as one heavy application will help much more than the same quantity would applied in fractions. Bbl. of about 200 lbs. \$3, ton of 2,000 lbs., in bbls., \$24; by car, \$22

Blood, Dried or Ground. Excellent stimulant for palms, ferns, carnations, etc. 10 lbs. 75 cts., 50 lbs. \$3, 100 lbs. \$5.

Blood and Bone. Invaluable for garden and field crops, grapevines, etc. 100 lbs. \$2.50, ton \$45. **Bon Arbor, Dry.** 5 lbs. \$1.80.

Bon Arbor. A liquid plant food good for all plants. It invigorates, promotes growth, increases the crop and causes it to mature earlier. Put up in 1- and 2-gallon kegs, \$2 per gallon; in 25-gallon barrels, \$1.50 per gallon; in 50-gallon barrels, \$1.25 per gallon.

BONE FERTILIZERS. Quantity required for permanent pasture and mowing lands, one-half to one ton to the acre. For trees and vines, two to four quarts each. For top-dressings, 1,000 to 1,500 lbs. to the acre. For field and garden crops, three-fourths to one ton broadcasted and harrowed in. For rose-beds, pot-plants, etc., one part to about fifty of soil.

Bone Dust for Quick Action. (P. 148, fig. 161.) Effective as a top-dressing and for mixing in soil. 100 lbs. \$3, 166-lb. bag. \$4.50,

Bone Meal for General Use. (P. 148, fig. 160.) Pure ground bone, not quite so finely ground as the preceding. 100 lbs. \$2.75, 200 lbs. \$4.50, ton \$42.50.

Bone Meal for Roses. For use under glass; the highest quality obtainable. 100 lbs. \$3, 200 lbs. \$5.50, ton \$50.

Bone, Crushed, Coarse. For vine borders, etc. ½-inch to 1-inch, or ¼-inch to ½-inch, 100 lbs. \$3, ton \$50.

Charcoal, Dust. Keeps the soil sweet. Useful for mixing with your potting soil. Lb. 25 cts., 10 lbs. 75 cts., 100 lbs. \$5.

Clay's Fertilizer. (P. 148, fig. 158.) A celebrated English fertilizer for both condensated. tilizer for both garden and greenhouse use. Highly concentrated,

therefore economical notwithstanding its apparently high price. Bag of 14 lbs. \$1.25, 28 lbs. \$2.25, 56 lbs. \$4, 112 lbs. \$7.

Farmogerm. High-bred nitrogen-gathering bacteria for clover alfalfa, garden peas, sweet peas, beans and other legumes. Bacteria produces nodules on the roots of legumes such as peas, beans, clovers, etc. The nodules are eight per cent pure nitrates. Bacteria makes nodules; nodules mean nitrates; nitrates mean big crops. All ready to use simply by moistening the seeds before planting. Price, in acre sizes, \$2 each; in garden size, 50 cts. each. In ordering, state what legume you wish to plant.

Horn Shavings. For mixing in potting soil; especially useful for chrysanthemums and orchids. 25 lbs. \$2, 50 lbs. \$3.25, 100 lbs. \$6. Humus Alphanus (Nature's Fertilizer). A splendid manure for lawns, flowers and vegetables; odorless and carries no weed

seeds. 100 lbs. \$1.75, ton \$25

Ichthemic Guano. (P. 148, fig. 162.) A celebrated English fertilizer; an ideal plant-food. 28 lbs. \$2.50, 56 lbs. \$4, 112 lbs. \$7.

Kainit, or German Potash Salt. Used chiefly for its potash value.

Should be applied a considerable time before the crop is planted. 100 lbs. \$1.75, 200 lbs. \$3, ton \$20.

Land Plaster, or Gypsum. Valuable for soils requiring lime and sulphate; good for sour soils. 100 lbs. \$1.50, ton \$18.

Lawn Sand, "Climax." Kills every weed that grows on grass lawns and also improves the grass. Full instructions for using on each can. 3½-lb. tin can 60 cts., 7-lb. tin can \$1, 14-lb. tin can \$1.75, 28-lb. wooden keg \$3, 56-lb. wooden keg \$5, 112-lb. wooden keg \$8. Lawn Top-Dressing, Odorless. 25 lbs. \$1, 50 lbs. \$1.75, 100 lbs.

\$3, 200 lbs. \$5, ton \$45.

Lime, Agricultural. A plant-food and neutralizer for acid soils 100 lbs. \$1.50, 500 lbs. \$6, ton \$16.

Mapes' Complete Potato Manure. Bag (200 lbs.) \$5, ton (2,000 lbs.)

lbs.) \$46.

Mapes' Vegetable Manure for All Soils. Bag (200 lbs.) \$5.50.

ton (2,000 lbs.) \$50.

Mapes' Fruit and Vine Manure. Bag (200 lbs.) \$5, ton (2,000 lbs.) \$46.

Mapes' Complete Manure. "A" brand, for general use. Bag (200

lbs.) \$5, ton (2,000 lbs.) \$45.

Mapes' Corn Manure. Bag (200 lbs.) \$5, ton (2,000 lbs.) \$45.

MURIATE OF POTASH. A form of potash salts to be used with bone meal, bone and blood, or farm manures, on fruits, celery, asparagus, corn, oats, turnips, cucumbers, grapes, carrots, onions, peas, clover and beans. Must not be used on hops, potatoes, tobacco, flax, sugar beets, cabbage or cauliflower. 50 to 400 lbs. per acre. 100 lbs. \$3.50, 200 lbs. \$6.50, 500 lbs. \$15.50. Write for orices on ton lots.

NITRATE OF SODA. 100 to 300 lbs. per acre. 25-lb. bag \$1.50, 50-

lb. bag \$2.50, 100-lb. \$4.50.

Guano, Peruvian. (Genuine.) One of the best all-round manures.

50 lbs. \$3, 100 lbs. \$5.50.

SHEEP MANURE, PULVERIZED. (P. 149, fig. 163.) For topdressing grass, use one to two tons to the acre. Prepared for use by a patent process which destroys all weed seeds, and at the same time preserves the fertilizing properties indefinitely. In bags of

100 lbs. \$2.50, 500 lbs. \$10, 1,000 lbs. \$18.50, ton \$35. Sulphate of Ammonia. Used for its nitrogen. A very desirable

fertilizer for all plants in which a large leaf development or rapid growth is desired. Use one pound to fifty square feet of ground or bench, or a tablespoonful to a bushel of soil, or three gallons of water. 25 lbs. \$1.75, 100 lbs. \$6.50.

Sulphate of Potash. A desirable form of potash to be used on all crops, but especially on tobacco, hops, potatoes, flax, sugar beets, cabbage or cauliflower. Use fifty to four hundred pounds to the acre. It is the best form for greenhouse use, and may be applied alther breedest and mixed with the soil or in solution in water. either broadcast and mixed with the soil, or in solution in water. In re-potting or in shallow beds, use a tablespoonful to a bushel of the soil. In water use a tablespoonful in 12 quarts. 100 lbs. \$3.75, 200 lbs. \$7, 500 lbs. \$16.50.

Superphosphate, Plain (Acid Phosphate). Good for all crops and unexcelled as a top-dressing for grass lands and grain. 100 lbs.

\$1.50, 200 lbs. \$2.75, ton \$20.

Scotch Soot (Genuine Imported). (P. 148, fig. 164.) Gardeners know the value of the genuine article for stimulating a healthy growth of dark green foliage, and its beneficial effect in freeing the soil from slugs, grubs, and cut-worms. Sold in 100-lb. bags only, \$5 per bag.
Salt, Agricultural. For top-dressing asparagus, etc. Sold in 100-

lb. bags only. \$2 per bag.

Tankage, Fine Ground. Contains both blood and bone. 200-lb.

bag \$5, ton \$45.

Thomson's "Special" Chrysanthemum Manure. fig. 165.) Imported and sold in original bags. An excellent stimulating manure for top-dressing of chrysanthemums and similar plants. It is entirely soluble and very powerful, especially suitable for top-dressing plants in pots during the growing season. A heaped dessert-spoonful will be sufficient for a 10-inch pot, sprinkled over the surface of the soil and watered in with tepid water. This may be given three times during the growing season. The very best results will follow. 28-lb. bag \$4, 56-lb. bag \$7,

112-lb. bag \$14.

Thomson's Vine, Plant and Vegetable Manure. (P. 148, fig. 166.) So compounded as to combine stimulating with lasting effects. A safe and reliable food and stimulant for every fruitbearing plant, for foliage and flowering plants, for vegetables and outdoor plants of every description; admirably adapted for mixing with the soil when potting in the proportion of 4 pounds to each wheelbarrow-load of soil. 28-lb. bag \$2, 56-lb. bag \$3.50, 112-lb.

bag \$6.75.

POTTING MATERIALS, ETC.

Charcoal, Lump. Large or small. Keeps potting soil sweet. Useful for potting orchids. Lb. 25 cts., 10 lbs. 75 cts., 100 lbs. \$5. Cocoanut Fiber. Bus. 75 cts., 3-bus. bag \$2. Fiber, Boddington's Prepared. for Growing Bulbs without

Drainage. Pk. 50 cts., bus. \$1.50. Leaf-Mold. Per bus. 75 cts., bbl. \$3.

Moss, Live Green Sphagnum. (P. 148, fig. 167.) Fresh, in season Bus. \$1.25, bbl. \$3.50.

Moss, Dry Sphagnum. Bus. 50 cts., bale \$2.75.

Moss, Sheet, Natural Green. For covering the pots or tubs of large plants; sheets range in size about 1 foot wide, and from 2 feet to 5 feet long. Bag of about 2 bushels, \$5.

Peat (Osmundi) for Orchids. Bus. \$1, bbl. \$2.50.

Peat, Rotted Fibrous. An excellent material for mixing with potting soil for many plants, such as ferns, begonias, etc. Bus. \$1, bbl. \$2.50

Pot-Grown Strawberry Plants IMMEDIATE DELIVERY

POT-GROWN PLANTS PLANTED IN THE FALL WILL GIVE A FULL CROP THE FOLLOWING SEASON

Culture.—Strawberries require rich, well-tilled soil; the plants should be set 15 inches apart, in rows 2 feet apart; 100 plants will plant 4 rows, 30 feet long. Firm the plants well in the soil, keep thoroughly cultivated and cut off all runners. In the middle of December cover the beds to a depth of 3 inches with salt meadow hay, straw or leaves. In April, as soon as the plants show an indication of growth, push the covering away from the plants to allow them to come up through. This "mulching" protects the plants from the cold in winter and the heat in summer, keeps the truit clean, and prevents the growth of weeds.

PERFECT AND PISTILLATE STRAWBERRIES. The blossoms of Strawberries are either staminate (perfect-flowering) or are destitute of stamens and are termed pistillate (imperfect flowering). Pistillate varieties must have a row of some perfect-flowering sort, flowering at the same time, planted every 10 or 12 feet apart among them, or, better yet, every third or fourth plant in the row, to pollenize their blossoms. When properly pollenized, the pistillate varieties are usually the most prolific. Those marked with P are

FORCING VARIETIES

Royal Sovereign. This variety is considered the best variety in England for forcing. Two years ago we imported some of this stock, and beg to state we can offer pot-grown plants of this valuable variety for immediate delivery, from 2 jainch pots, at \$1.50 per doz., \$10 per 100.

Pride of Redbank. Mr. William Turner, Oceanic, N. J., the famous grower of fruit and Strawberries under glass, says: "Pride of Redbank is one of the finest, freest, and best-colored berries for forcing under glass," It is upon his recommendation that we are listing it, and offer pot-grown stock at \$1.50 per doz., \$10 per 100.

General List of Pot-Grown Strawberry Plants

Americus. A new seedling fallbearing variety of thrifty growth; good yielder and shipper; fruit of medium size; has given satisfaction wherever tried. \$1,50 per doz., \$10 per 100.

August Luther. Extra early. This variety is very popular not only with berry-growers, but also in the family garden; it has a host of friends, and succeeds everywhere. The berries are of good size, firm and lots of them.

Brandywine. Midseason to late. Large, roundish, conical, glossy crimson, firm and solid; of fine aromatic flavor. Plant vigorous and productive; succeeds on any soil.

Bubach. (P.) Midseason. A very large berry of dark color. Productive; of fair flavor. Largely grown for market.

Clyde. A week earlier than Bubach, and very firm; berries are large, bright scarlet, and of fine

Commonwealth. Very late. In the Commonwealth we have a berry as large as the largest as productive as any of the large-fruiting varieties, and as fine-flavored and juicy and as dark-colored as any Strawberry grown. \$5 per 100.

Gandy. One of the very best later varieties. It is a strong, compact grower, with larger, bright, glossy crimson fruit, very uniform in shape; flesh firm and of the finest flavor.

Glen Mary. Early. Large; bright, glossy crimson; of fine flavor. Plant strong and healthy. very prolific, and on good soil the berries are large to the end of the season.

Hunn. (P.) A late variety, very productive, large size, uniform shape, dark crimson, firm flesh of the finest flavor. A strong grower and

the latest sort grown.

essie. Early. Very productive; fruit large, Jessie. Early. light crimson in color; firm, and flavor of the

Marshall. Midseason. Large; dark crimson; good. Plant luxuriant, but needs rich soil and careful culture.

New Home. As late and large as Gandy. fruit bright red, of uniformly large size.

A good keeper and shipper.

New York. The berries are very large, ripening midseason. Color dark scarlet, changing to crimson when fully ripe; colors all over at once; quality first-class. Nick Ohmer. For market, for home use

or for exhibition, this is probably the greatest berry ever offered. It is a healthy, vigorous grower, and of great productive-ness. The fruit is of mammoth size, beautiful in form and color, and of excellent quality.

Oom Paul. One of the largest so far introduced, and very firm for such a large

berry, and will stand shipping with any of the very large

President. (P.) Almost round. very uniform in shape, borne in large clusters; flesh solid; color rich crimson; strong grower; ex-ceedingly productive and continues bearing till end of scason.

Sample. (P.) Late. Fruit large, round and dark crimson in color, and of good quality.

Schofield. Early to late. Loved

by everybody on account of its cnormous size, bright red color, and rich aromatic flavor peculiar to itself.

Sharpless. Midseason. Demands rich, strong soil. Plant large and vigorous; berries very large, irregular in shape, crimson, moderately firm and of good quality. An old and standard variety which is still popular

St. Antoine de Padoue (The Everbearing Strawberry). This variety is the finest in the Alpine class, and will continue fruiting until way into September. While the berries are not large, they are very rich in aromatic flavor, and of good color. If you desire Strawberries out of season this is the variety to grow. 75 cts. per doz., \$5 per 100.

Uncle Jim. A very valuable midscason variety of large size and wonderful productiveness; bright red color and finest quality

Wm. Belt. The berries are as large as Bubach, more uniform in shape, just as productive, and the color is perfect.

Royal Sovereign

Any of the above varieties 50 cts. per doz., \$3.75 per 100, \$35 per 1,000, except where noted. Special prices given on large quantities or varieties not quoted in this list
